

# comprehensive care

With over 15 years in practice, Dr. Gregory Hooper takes pride in delivering impeccable customer service, quality patient care and superior results.

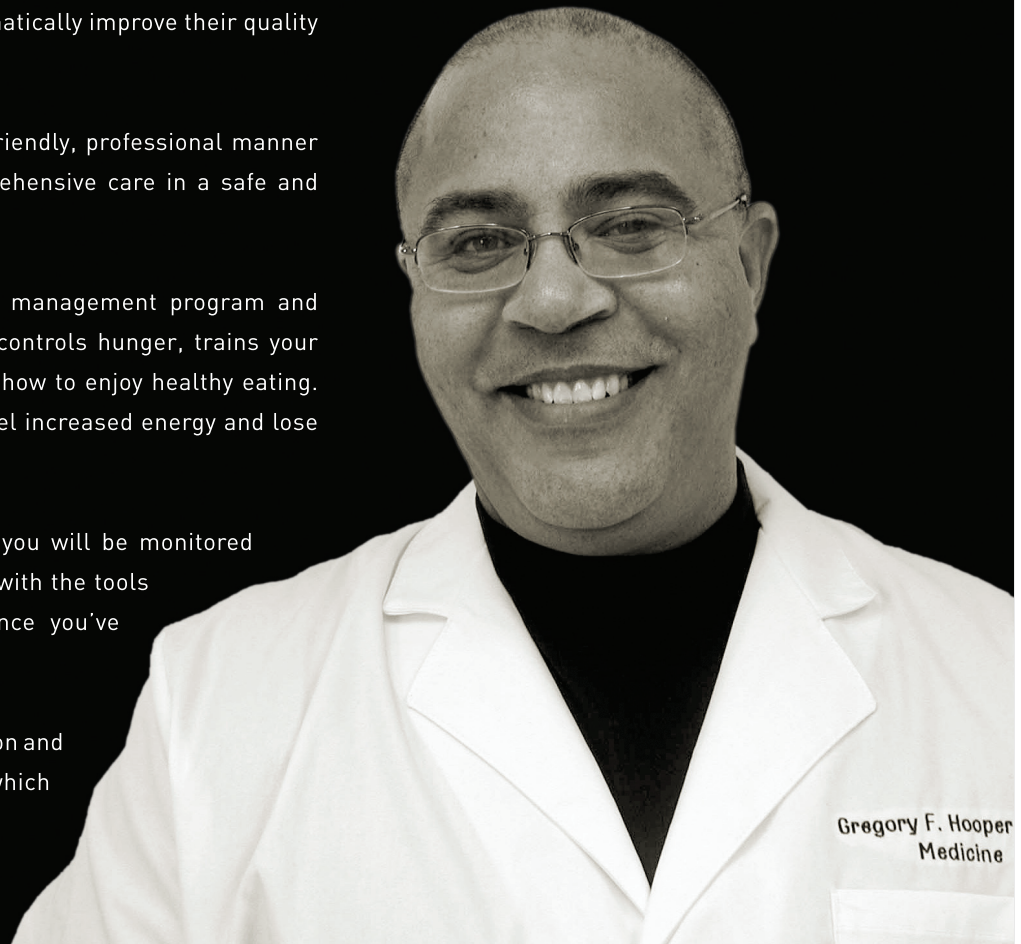

"I am dedicated to assisting patients in their journey to achieve optimum health and wellness. Not only do we help patients lose weight, we help them to dramatically improve their quality of life.

We treat all our patients with a friendly, professional manner and provide individualized comprehensive care in a safe and supportive environment."

Our physician-supervised weight management program and custom-tailored nutritional plan controls hunger, trains your body to burn fat and teaches you how to enjoy healthy eating. While on our program, you will feel increased energy and lose weight rapidly and safely.

As a participant in our program you will be monitored weekly – and we will provide you with the tools to maintain your weight loss once you've reached your ideal weight!

Please call us for a free consultation and make the one lifestyle change which could most benefit your health.
